
There is no stillness in this work. The painting itself seems to lunge from left to right—taking the viewer with it—as children scoop up snow and thrust it across the canvas. Each of the boys rolling the giant snowball uses different movement strategies; some engaging their core muscles, others using their arms and shoulders, one using a lever.
Adherence to Accelerometry Measurement of Community Ambulation Poststroke / Sharon Barak, Samuel S. Wu, Yunfeng Dai, Pamela W. Duncan, Andrea L. Behrman; for the Locomotor Experience Applied Post-Stroke (LEAPS) Investigative Team
